SUMMARY

Information Technology (Game Technology) undergraduate with experience in Unity game development, C#, PHP, MySQL, and software development. Developed multiple game and web-based projects independently, from design and implementation to testing and documentation. Passionate about Game Development, Software Engineering, Web Development, and Interactive Simulation. Seeking an internship or entry-level opportunity related to IT or Game Technology.

EDUCATION

Universiti Teknikal Malaysia Melaka (UTeM)

Bachelor of Information Technology (Game Technology), CGPA: 3.10

Kolej Universiti Islam Antarabangsa Selangor (KUIS)

Diploma in Computer Science, CGPA: 3.68

SMK Tengku Intan Zaharah

SPM: 3A, 3B, 1C, 2D, 2E

SMA Kampung Laut

SMU: 9 Mumtaz, 1 Janyid Jiddan

PROJECTS

Construction Safety Training Simulation (Final Year Project) | Solo Developer

- Built a 3D Unity simulation to train construction safety awareness.
- Developed PPE inspection, hazard identification, inventory, interaction, and risk assessment systems.
- Designed complete gameplay, UI, testing, and documentation independently.

Eco-Tech Simulator: Advanced Electronics Repair Workshop for TVET Engineering Training

- Contributed to an educational simulation for engineering training.
- Assisted with gameplay implementation and testing.

Shadow Escape | Solo Developer

- Developed a complete Unity game with player movement, enemy AI, UI, and gameplay mechanics.

Rooftop Runner | Solo Developer

- Created a 3D endless runner featuring obstacle spawning, scoring, collision detection, and game UI.

Sneak Out (Workshop II) | Game Artist & Designer

- Designed game assets, gameplay concepts, and level layouts.

Restaurant Ordering System (Workshop I) | Solo Developer

- Developed a restaurant ordering system with menu, ordering, and database functionality.

Online Shopping Portal (Diploma Final Year Project)

- Built an e-commerce website with authentication, product management, shopping cart, checkout, and MySQL database.

MISSION: DELIVERED | Short Film Production

Kinetic Typography | Motion Graphics Video

TECHNICAL SKILLS

Programming: C#, PHP, SQL, HTML, CSS, JavaScript, Python (Basic)

Game Development: Unity, Game Programming, UI Design, Level Design, C# Scripting, Physics, Animation, Gameplay Systems

Web Development: PHP, MySQL, Database Design, CRUD, Authentication

Tools: Unity, Visual Studio, VS Code, Git/GitHub, MySQL, XAMPP, Microsoft Office

Problem Solving

Teamwork

Communication

Time Management

Leadership

Presentation

Documentation

CAREER INTEREST

Seeking internship opportunities as: - Unity/Game Developer - Software Developer - Web Developer - C# Developer - QA/Game Tester - IT Executive - System Developer - Simulation Developer
